General Description

The JS29F32B08JCME2 is a 32Mb Flash memory chip organized as 4 million words by 8 bits. It is designed for high-speed data storage and retrieval in various electronic devices.

Features

32Mb (4MB x 8) configuration

High-speed access time

Erase and program operations for data modification

Built-in erase suspend and resume functions

Reliable data retention

Wide voltage range: 2.7V to 3.6V

RoHS compliant

Available in a 48-pin TSOP package

Application

Embedded systems

Mobile devices

Consumer electronics

Automotive applications

Industrial control systems

Networking devices
