General Description

ISP1520BD is a USB transceiver IC manufactured by NXP Semiconductors. It is designed to provide USB connectivity for embedded systems, and is commonly used in a variety of applications such as printers, scanners, cameras, and other USB devices.

Features

- Full-speed USB 2.0 compliant interface
- Integrated 3.3 V voltage regulator
- 8-bit parallel interface for connecting to microcontrollers or other embedded systems
- Supports both low-speed and full-speed USB devices
- Supports USB suspend and resume modes
- Supports remote wake-up from suspend mode
- 48 MHz internal oscillator
- 4 kV ESD protection on USB pins

Application

- Printers
- Scanners
- Cameras
- Set-top boxes
- Medical devices
- Industrial control systems
- Point-of-sale terminals
- Gaming peripherals
