## General Description

TDA7386 is a power amplifier integrated circuit (IC) designed for use in car audio systems. It is manufactured by STMicroelectronics and is widely used in automotive audio applications.

### Features

- Four-channel class AB amplifier with a maximum output power of 49W per channel at 4 ohms and 28V supply voltage
- Low distortion and noise
- Thermal protection and short-circuit protection
- Standby/mute function

### Application

- TDA7384
- TDA7385
- TDA7388
- TDA7389
- TDA7391
