

Data Sheet

Trans MOSFET N-CH 100V 11.2A 8Pin SOIC N T/R

Manufacturers ON Semiconductor, LLC

Package/Case SOIC-8

Product Type Transistors

RoHS Green

Lifecycle

Please submit RFQ for FDS86140 or Email to us: sales@ovaga.com We will contact you in 12 hours.

General Description

This N-Channel MOSFET is produced using an advanced Power Trench® process that has been optimized for rDS(on), switching performance and ruggedness.

Features Application

Max = 10 V,>
