

# DT28F160S570

Data Sheet

16 Characters x 2 Lines, 5x7 Dot Matrix Character and Cursor

Manufacturers	Intel Corp
Package/Case	SOP-56
Product Type	Integrated Circuits (ICs)
RoHS	
Lifecycle

### **General Description**

DT28F160S570 is a Flash Memory IC (Integrated Circuit) produced by Intel. It is a member of the 28Fxxx series of NOR Flash memory devices.

#### Features

16 Megabit (2 Megabyte) density

5V power supply

Organized as 2M x 8/1M x 16

Access time: 70 ns

Sector architecture with erase granularity of 64 Kbytes

Embedded Algorithms: auto-erase and auto-program

Low power consumption

Industrial temperature range (-40°C to +85°C)

RoHS compliant

## Application

Embedded systems

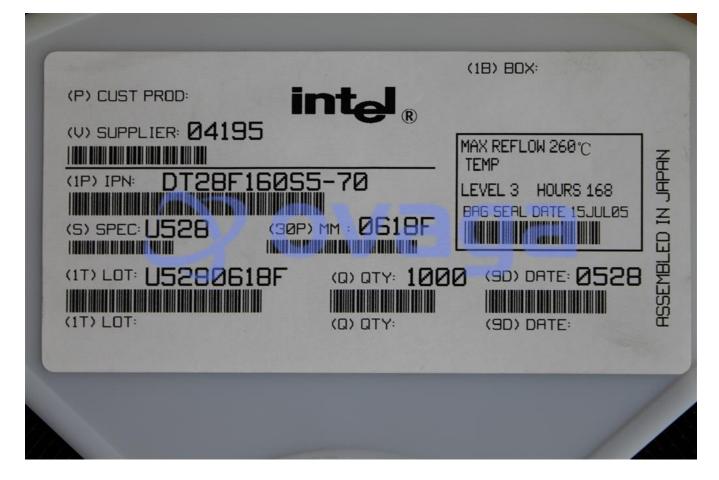

Industrial equipment

Automotive systems

Consumer electronics

Telecommunications equipment

Networking equipment
