## General Description

DAC8420FP is a digital-to-analog converter (DAC) manufactured by Texas Instruments. It is a 16-bit, high-speed, low-power, voltage-output DAC designed for use in a variety of applications, including test and measurement equipment, instrumentation, and industrial control systems.

### Features

- 16-bit resolution
- Low power consumption
- Fast settling time
- Serial interface (SPI)
- Voltage output
- Wide temperature range

### Application

- Instrumentation and control systems
- Automatic test equipment
- Digital audio systems
- Medical equipment
- Industrial control systems
