## General Description

MAX921ESA is a high-speed differential line driver manufactured by Maxim Integrated. It is designed to transmit data over long distances at speeds up to 500 Mbps.

### Features

- High-speed differential signaling
- 500 Mbps data rate
- Wide power supply range: 3V to 5.5V
- Low power consumption: 35mA typical
- Thermal shutdown protection
- Small package: 8-pin SOIC

### Application

- High-speed data transmission over long distances
- Automotive camera and video systems
- Industrial automation and control systems
- Medical imaging systems
- Security and surveillance systems
